Overview

Course Code: WBT-3045  
Course Length: 8 Hour

In this course, you will learn the basic skills necessary to use the Arbortext Integration to manage Arbortext Editor documents in the Windchill ProjectLink environment. The course covers the basic operations to upload, check in, and check out Arbortext documentation from Windchill ProjectLink. These skills are important because they enable a user to apply Windchill ProjectLink capabilities toward meeting a company's Content Management goals.

At the end of the course, you will complete a skills assessment. The questions are used to help reinforce your understanding of the module topics and form the basis for review of any topics, if necessary.

Course Objectives

- Logging on and connecting to Windchill ProjectLink
- Understanding and using workspaces
- Searching and browsing for dynamic documents
- Sharing Arbortext documents
- Using and managing visualization
- Generating and managing published content
- Understanding and using burst configuration files
- Creating and using managed baselines
Prerequisites

- Basic browser and Web navigation skills
- Basic understanding of Arbortext Editor functionality
- Basic understanding of Project Management processes and deliverables

Audience

- This course is intended for end users that generate documentation in Arbortext Editor and need to manage the documentation in a Windchill environment
