In this course, you will learn about Windchill PDMLink capabilities and terminology, the role of the Business Administrator in managing the Windchill PDMLink business environment, and the steps required to plan the implementation of Windchill PDMLink at your company.

At the end of each module, you will complete a skills assessment. The questions are used to help reinforce your understanding of the module topics and form the basis for review of any topics, if necessary.

Course Objectives

• Explain the role of the Business Administrator
• Define terminology
• Identify the data to be managed
• Understand the processes involved in defining your business environment
• Plan the implementation strategy for your business environment

Prerequisites

• WBT-3020 Locate and View Information with Windchill PDMLink 10.0

Audience

• This course is intended for business administrators, system administrators, and project team leaders. Implementation team members, including user adoption team members and those with general Windchill PDMLink administration responsibilities, will also benefit from taking this course.
