Data and Context Administration of Windchill PDMLink 10.0

Overview

Course Code: WBT-3086
Course Length: 3.5 Hours

In this course, you will learn how to perform basic Windchill PDMLink administration tasks. You will learn the various Windchill storage containers, such as the site context, library contexts, and product contexts. You will create these contexts and store objects in them. You will also learn how to create new object types and modify the functionality of existing types in these contexts, enabling them to have extra attributes or to set attributes automatically upon object initialization.

At the end of each module, you will complete a skills assessment. The questions are used to help reinforce your understanding of the module topics and form the basis for review of any topics, if necessary.
