Working in Libraries with FlexPLM 9.2

Overview

Course Code: WBT-3201-0
Course Length: 1 Hour

In this course, you will learn how to navigate to business objects in the FlexPLM Library. You will learn how to use links in the Navigator tab to access library objects. You will also learn how to find library objects and use views and filters to refine search results. Finally, you will learn how to view, create, and manage information for the different objects in the library.

You will complete Pro/FICIENCY skills assessment questions for each module. These questions are used to help reinforce your understanding of the course topics and form the basis for daily review sessions.

After completing the course, you will be prepared to work in Libraries with FlexPLM.
