Managing Materials with FlexPLM 9.2

Overview

Course Code: WBT-3202-0
Course Length: 1 Hour

In this course, you will learn how to manage materials used for product development in the material library. You will learn how to use material associations in FlexPLM for suppliers and colors. You will also learn how to create materials in the FlexPLM Library. Finally, you will learn how to navigate and work in the material pages for Details, Colors, Images, and Pricing.

You will complete Pro/FICIENCY skills assessment questions for each module. These questions are used to help reinforce your understanding of the course topics and form the basis for daily review sessions.

After completing the course, you will be prepared to manage materials with FlexPLM.
