Working with Plans in FlexPLM 9.2

Overview

Course Code WBT-3205-0
Course Length 1 Hour

In this course, you will learn how to manage plans used for product development and line planning. You will learn how to characterize plans to include data for financial attributes, product types and product placeholders. You will also learn how to browse Plan pages, such as Plan Details, Plan Data, and Plan Reports.

You will complete Pro/FICIENCY skills assessment questions for each module. These questions are used to help reinforce your understanding of the course topics and form the basis for daily review sessions.

After completing the course, you will be prepared to work with Plans in FlexPLM.

Course Objectives

- Understand plan associations.
- Browse and work on Plan pages.
- Manage Plan Details.
