Working with Product Sources and Cost Sheets in FlexPLM 9.2

Overview

Course Code  WBT-3207-0
Course Length  1 Hour

In this course, you will learn how to define sourcing for products and colorways. You will learn how to manage product sourcing configurations and how to assign sourcing configurations to colorways. You will also learn how to view product cost details and how to update product cost sheets.

You will complete Pro/FICIENCY skills assessment questions for each module. These questions are used to help reinforce your understanding of the course topics and form the basis for daily review sessions.

After completing the course, you will be prepared to work with product sources and cost sheets in FlexPLM.
