Working in Libraries with FlexPLM 10.1

Overview

Course Code | WBT-3651-0
Course Length | 1 hour

In this course, you will learn how to browse to business objects in the FlexPLM Library. You will gain a high level understanding of how to find and create objects used for the day-to-day management of product development data. After completing this course, you will be able to manage business objects in the FlexPLM Libraries.

You will complete Pro/FICIENCY skills assessment questions for each topic. These questions are used to help reinforce your understanding of the course topics.

Course Objectives

• Browse the FlexPLM Libraries to find business objects
• Utilize search results
• Create and manage business objects in the FlexPLM Library

Prerequisites

• Basic browser and Web navigation skills
• Basic understanding of Product Lifecycle Management processes and deliverables as they relate to seasonal product development

Audience

• This course is intended for production staff and system support staff. People in related roles will also benefit from taking this course.
