Working with Palettes in FlexPLM 10.1

Overview

Course Code  WBT-3653-0
Course Length  1 hour

In this course, you will learn how to manage palettes used for product development in FlexPLM. You learn how to associate colors, documents, materials, and material colors to palettes. You also learn how to create seasonal palettes and sub-palettes. After completing this course, you will be able to manage palette details in FlexPLM. You will complete Pro/FICIENCY skills assessment questions for each topic. These questions are used to help reinforce your understanding of the course topics.

Course Objectives

• Find and manage FlexPLM palette details
• Add colors, materials, and material colors to palettes
• Create sub-palettes

Prerequisites

• Basic browser and Web navigation skills
• Basic understanding of Product Lifecycle Management processes and deliverables as they relate to seasonal product development

Audience

• This course is intended for production staff and system support staff. People in related roles will also benefit from taking this course.
