Managing Seasons with FlexPLM 10.1

Overview

Course Code: WBT-3654-0
Course Length: 1 hour

In this course, you will learn how to create and manage seasons. You will gain a high level understanding of how season concept and development data is organized in FlexPLM. You will learn how to create Line Boards used for product development. You will also learn how to create a Silhouette page. After completing this course, you will be able to manage season details in FlexPLM.

You will complete Pro/FICIENCY skills assessment questions for each topic. These questions are used to help reinforce your understanding of the course topics.

Course Objectives
