Working with Plans in FlexPLM 10.1

Overview

Course Code  WBT-3655-0
Course Length  1 hour

In this course, you will learn how to manage plans used for merchandise planning in FlexPLM. You will gain a high level understanding of seasonal plan associations to placeholders and products. You will also learn how to access and create plans. In addition, you will learn how to add plan data such as cost, retail margin, margin percent, volume, and product count. After completing this course, you will be able to manage plan details in FlexPLM.

You will complete Pro/FICIENCY skills assessment questions for each topic. These questions are used to help reinforce your understanding of the course topics.

Course Objectives

• Understand plan associations in FlexPLM
• Create and manage season plans
• Export plan data

Prerequisites

• Basic browser and Web navigation skills
• Basic understanding of Product Lifecycle Management processes and deliverables as they relate to seasonal product development

Audience

• This course is intended for production staff and system support staff. People in related roles will also benefit from taking this course.
