Working with Product Sources and Cost Sheets in FlexPLM 10.1

Overview

Course Code: WBT-3657-0
Course Length: 1 hour

In this course, you will learn how to define sourcing for products and colorways. You will also learn how to work with business objects such as sources, order confirmations, request for quotes (RFQs), and cost sheets. You will gain a high level understanding of associations to the sourcing configuration in FlexPLM. In addition, you will learn how to create sources for products and colorways and how to create and manage cost sheets. After completing this course, you will be able to manage sourcing and costing information in FlexPLM.

You will complete Pro/FICIENCY skills assessment questions for each topic. These questions are used to help reinforce your understanding of the course topics.

Course Objectives

- Understand product and colorway sourcing and costing in FlexPLM
- Create and manage product sourcing configurations
- Create and manage product RFQs
- Understand product order confirmations
- Compare and manage product cost sheet details

Prerequisites
