Working with the Vendor Portal in FlexPLM 10.1

Overview

Course Code  WBT-3660-0
Course Length  1 hour

In this course, you will learn how to manage business objects in the Vendor Portal. You will also learn how vendors access product and material development information in FlexPLM. Finally, you will learn how vendors find and manage products, samples, documents, materials, order confirmations, and request for quotes (RFQs). After completing this course, you will be able to understand how vendors and suppliers use the Vendor Portal. You will complete Pro/FICIENCY skills assessment questions for each topic. These questions are used to help reinforce your understanding of the course topics.

Course Objectives

• Understand how vendors access FlexPLM using the Vendor Portal
• Understand which objects vendors are able to manage
• Assign a material to a supplier to enable access in the Vendor Portal
• Log on to the Vendor Portal as a material supplier

Prerequisites

• Basic browser and Web navigation skills
• Basic understanding of Product Lifecycle Management processes and deliverables as they relate to seasonal product development

Audience

• This course is intended for production staff and system support staff. People in related roles will also benefit from taking this course.
