Overview

Course Code: WBT-3713
Course Length: 1.5 hour

This course constitutes a comprehensive review of Windchill PDMLink Change Management functionality. In addition, the content is built to support topic-based course configurations. After completing this course, you will be prepared to complete basic Windchill PDMLink Change Management tasks and activities. You will also have a better understanding of Windchill PDMLink Change Management processes.

In this course, you will learn about change management capabilities in Windchill PDMLink. You will review the closed-loop change process that is the foundation of Windchill's Change Management discipline and also how to report problems and monitor the progress of changes. Additionally, you will review the entire fast-track change process, taking multiple roles while creating a change request, a change notice, and completing implementation tasks. Finally, you will learn about and create a variance.

You will complete Pro/FICIENCY skills assessment questions for each topic. These questions are used to help reinforce your understanding of the course topics and form the basis for daily review sessions.

Course Objectives

- Introduction to the Change Management system
- Create a problem report
- Create a change request
- Create a change notice and implementation tasks
- Implement changes
- Create a variance
- View the change monitor
