Overview

In this course, you will learn about Pro/INTRALINK capabilities and terminology, the role of the Business Administrator in managing the Pro/INTRALINK environment, and the steps required to plan the implementation of Pro/INTRALINK at your company.

You will complete Pro/FICIENCY skills assessment questions for each topic. These questions are used to help reinforce your understanding of the course topics.

Course Objectives

- Explain the role of the Business Administrator
- Define terminology
- Identify the data to be managed
- Understand the processes involved in defining your business environment
- Plan the implementation strategy for your business environment
Prerequisites

- Locate and View Information with Pro/INTRALINK 10.1

Audience

- This course is intended for business administrators, system administrators, and project team leaders. Implementation team members, including user adoption team members and those with general Windchill administration responsibilities, will also benefit from taking this course.
