Process Administration for Pro/INTRALINK 10.1

Overview

Course Code: WBT-3761-0
Course Length: 1 Hour

In this course, you will learn about the administrative objects that control object state. First, you will learn about Life Cycle Templates, which define the states of the objects. Then, you will learn about the technology that is commonly used to promote an object from state to state, Promotion Requests. You will complete Pro/FICIENCY skills assessment questions for each topic. These questions are used to help reinforce your understanding of the course topics.

Course Objectives

- Create and define life cycle templates
- Associate life cycle and workflow templates
- Identify the promotion review and approval processes
Prerequisites

- Business Administration Overview of Pro/INTRALINK 10.1

Audience

- This course is intended for business administrators, system administrators, and project team leaders. Implementation team members, including user adoption team members and those with general Windchill administration responsibilities, will also benefit from taking this course.
