SCCM Traceability with Integrity 10.4

Overview

Course Code: WBT-4125-0
Course Length: 0.8 Hours

In this course, you will be introduced to the capabilities and concepts of Integrity SCCM Traceability. The Source Trace Viewer and Linking an item to a source code project will be covered.

You will complete Pro/FICIENCY skills assessment questions for each topic. These questions are used to help reinforce your understanding of the course topics.

Course Objectives

- Identify information in the Source Trace Viewer
- Link an SCCM project to a Workflows and Documents item
- View trace information from both the Workflows and Documents item and the SCCM project

Prerequisites

- None

Audience

- This course is intended for Integrity developers who are involved with software source code development. People in related roles will also benefit from taking this course.
