Business Administration of Pro/INTRALINK 10.2

Overview

Course Code: WBT-4332-0
Course Length: 24 Hours

In this course, you will gain an understanding of basic Pro/INTRALINK administration tasks. You will learn how to plan and create user accounts and groups as well as information management storage strategies. Other topics include life cycles, contexts, teams, and configuring domain policies. These skills enable a business administrator to configure Pro/INTRALINK to meet business needs. After completing this course, you will be well prepared to set up and manage a basic Pro/INTRALINK implementation at your company.

At the end of each module, you will complete a set of review questions to reinforce critical topics from that module. At the end of the course, you will complete a course assessment in Pro/FICIENCY intended to evaluate your understanding of the course as a whole.

Course Objectives

- Understand the processes involved in defining your business environment
- Identify the use of a Windchill Organization
- Create and manage user accounts and groups
- Identify best practices for managing groups and user accounts
- Identify contexts and their relationships
