Introduction to ThingWorx 6.5 Dashboards (Part 8 of Introduction to ThingWorx 6.5)

Overview

Course Code: WBT-4491-H  
Course Length: 5 Hours

This course is applicable to ThingWorx 5.2 and higher. All features taught in this course apply to ThingWorx 5.2.

This course is the final part in a series of eight courses that will teach you how to use ThingWorx 6.5 to build and run the applications of a connected world. In this course, you will learn how to configure ThingWorx dashboards. The intuitive functionality of dashboards enable your end users to select the tools and elements that appear in their user interface with limited user training.

Course Objectives

- Create dashboards
- Create gadgets
- Create gadget groups
- Create gadget libraries
- Configure and use a dashboard-based user interface

Prerequisites

- Installing ThingWorx 6.5
- Getting Started with ThingWorx 6.5
- Connecting to External Data Sources using ThingWorx 6.5
- Implementing ThingWorx 6.5 Data Structures
- Transferring Files Between ThingWorx 6.5 Components
- Configuring Mashup Displays with ThingWorx 6.5
