The PTC Windchill PDMLink 11.0 Change Management Process

Overview

Course Code: WBT-4732-0  
Course Length: 1.5 Hours

In this Process-based course, you will learn about the Windchill PDMLink change management solution. You will review the closed-loop change process that is the foundation of Windchill’s Change Management discipline and also how to report problems and monitor the progress of changes. Additionally, you will review the entire fast-track change process, taking multiple roles while creating a change request, a change notice, and completing implementation tasks.

You will complete PTC University Proficiency skills assessment questions for each topic. These questions are used to help reinforce your understanding of the course topics. This course has been developed using Windchill 11.0 F000.

Course Objectives

- Understand the Change Management process
- Create a problem report
- Create a change request
- Create a change notice and implementation tasks
- Implement changes
Prerequisites

- Locate and View Information with Windchill PDMLink 11.0 or equivalent
- Basic understanding of product development processes and deliverables
