Update to PTC Windchill PDMLink 11.0 from PTC Windchill PDMLink 10.2 for the End User

Overview

Course Code  WBT-4742-0
Course Length  1 Hour

In this course, you will learn to identify the new Windchill features available in Windchill 11.0. This course enables you to update your Windchill knowledge and skills from Windchill PDMLink 10.2 to work in a Windchill PDMLink 11.0 environment.

You will complete Pro/FICIENCY skills assessment questions for each topic. These questions are used to help reinforce your understanding of the course topics.

This course has been developed using Windchill 11.0 F000 and Creo Parametric 3.0 M070.

Course Objectives

- Identify the Usability updates.
