Introduction to ThingWorx Navigate 1.5 Apps

Overview

Course Code: WBT-4768-0
Course Length: 0.5 Hours

In this course, you will learn how ThingWorx Navigate apps enable users to quickly and easily access specific Windchill information. You will discover how ThingWorx Navigate apps simplify and improve access to the Windchill data, such as design files, drawings, parts, bill of materials, and documents.

This course has been developed using Windchill 11.0 M20 and ThingWorx Navigate 1.5.

Course Objectives

• Identify various ThingWorx Navigate apps
• Use ThingWorx Navigate apps
• Navigate the ThingWorx Navigate environment
• Search and view design files and drawings
• View and measure in 3-D
• View part properties, parts list, and part structure
• Search and view documents

Prerequisites

• None

Audience

• This course is intended for end users who want to use apps for searching and viewing information in Windchill. People in related roles will also benefit from taking this course.
