Mathcad Prime 4.0 - Data Exchange and Analysis

Overview

Course Code: WBT-5140-F
Course Length: 2 Hours

In this course, you will learn the essentials of importing and exporting data and data analysis using Mathcad Prime. You will understand how it reinforces Mathcad Prime’s data exchange and analysis functionality using clear, straightforward instruction and examples.

You will complete Pro/FICIENCY skills assessment questions for each topic. These questions are used to help reinforce your understanding of the course topics.

This course has been developed using Mathcad Prime 4.0 F000.

Course Objectives

- Import and export data
- Smooth, interpolate, and regress data
Prerequisites

- Mathcad Prime 4.0 – Application Orientation
- Mathcad Prime 4.0 – Plotting

Audience

- This course is intended for the novice or intermediate Mathcad user.
